

## EUROPEAN LEGISLATION: SPEAK UP YOUR VOICE!

Do you face problems with regulation or barriers in the framework of your activity in Europe or beyond?

You don't find answers to your questions on European legislation?

Do you face difficulties to be in compliance with specific European Directives?

→ Enterprise Europe Network Brussels informs the European Commission on your problems, needs and expectations related to Europe.

**Describe briefly your case in order to give us the opportunity to communicate the information to the European Commission. You can be an actor of the evolution of legislations!**

The case involves the following activity:

- Research and development
- Production/Marketing
- Buying of goods
- Selling of goods
- Provision of services
- Other

Is the case related to **cross-border activities**?                      YES / NO

If yes, specify the **country involved**:

Please indicate the **main policy field**?

- Competition
- Relation with consumers
- European financial activities and programmes for enterprises
- Customs
- Employment and Social Affairs (incl. Free movement of workers)
- Environment
- External Trade (outside EU/EEA)
- Internal Market:
  - Movement of goods
  - Provision of services
  - Internal Market: Business environment
- Research and Innovation
- Taxation
- Transport
- Other

Which of the following options fits best the type of problem encountered?

- Significant difficulties to find European information needed to carry out the activity
- The European legislation or the procedure negatively/disproportionately affects in particular SMEs
- Lack of detail in the text of the European legislation
- Wrong interpretation at national level of a European legislation
- National requirements in a cross border activity impeding the correct functioning of the Internal Market

Please provide details on the type of problem encountered, including the negative impacts on the company (maximum 1500 characters):

Please quantify the **loss of time** caused by the problem:

Please quantify in **euros the additional costs/loss** related to the case :

**How could this kind of problem be solved?**

- Making available the information through more accessible means (internet, in the language of the SME, etc)
- Providing more detailed information on implementing rules in the EU rules (EU responsibility)
- A more homogeneous interpretation of EU rules across Europe (national responsibility)
- Modifying the national legislation implementing EU rules in a certain country
- Modifying and better adapting the EU legislation to SMEs characteristics
- Others
